MEMORANDUM

DATE: February 4, 2025
TO: All Bidders
FROM: Marcus Sack, P.E. *MS*
RE: Pembroke 2024 LMIG
City of Pembroke
MES No. 2024-15

The purpose of this memo is to provide clarification on the questions listed below. Please note that this will be the last clarification prior to bid.

1. *The West Bacon St paving width is only 7'. The tightest we can get one of our pavers is 8'.*
 - The necessary patch width is listed in the bid documents and bid items as the minimum required. Should a contractor require more width for machinery, the price for the additional paving should be factored into the price bid.

2. *Is GDOT going to allow this without a R/W permit, pre-con, etc.?*
 - The state route paving efforts included in this project were approved and permitted by GDOT with the respective underground utility repair work for each location, which was completed with a previous project. A preconstruction meeting is required and will be scheduled once the project is awarded.
